

FOR SOLUTIONS GROUP CUSTOMERS

Digital, objective falls-risk screening in under 5 minutes.

Turn fall-risk conversations into new clients — at exclusive Solutions Group partner pricing.

SOLUTIONS GROUP • MEMBER BENEFITS

Why Solutions Group customers are choosing Able Assess

Reduce the risk of falls and claims

Identify high-risk clients before an incident happens — protecting your caseload, your reputation and your insurance exposure.

Drive client acquisition

A hands-on demo at expos, assessments and first visits turns fall-risk into your strongest conversion tool.

Defensible documentation

Clear, time-stamped records support claims defense and dispute resolution.

Standardize caregiver SOPs

One guided workflow across every visit and every caregiver — consistent assessment, consistent reporting, consistent quality of care.

SOLUTIONS GROUP • EXCLUSIVE PRICING

Free sensor for Solutions Group Customers. One simple subscription.

THE WORKFLOW

How Able Assess works

- 01 Assess**
Caregiver runs a guided, four-metric screen — grip strength, leg strength, gait speed, balance — in under 5 minutes.
- 02 Report**
Get a clear report indicating falls risk - defensible documentation ready for a clinical referral.
- 03 Refer**
Surface practical next steps — home modifications, PT referrals, doctor follow-ups .
- 04 Monitor**
Re-measure on a cadence; the portal trends progress and flags decline before it becomes a fall.

INSIDE EVERY SOLUTIONS GROUP KIT

What you get

- GripAble sensor + accessories**
Measure all four data points with one clinical-grade device.
- Able Assess app**
Step-by-step guided screening for caregivers on iPad or Android devices..
- Client portal**
Web dashboard to visualise baselines, trends and decline across your caseload.
- Caregiver onboarding & training**
Live training sessions and ongoing support to help your team get the most out of Able Assess
